With Jumaadi

This is not a resolution, this is a revolution.

**Jumaadi** was born in East Java, Indonesia in 1973 and now lives and works between Yogyakarta, Indonesia and Sydney, Australia. Jumaadi uses mixed media (water, acrylic and oil) to create works on timber, canvas, buffalo hide and cloth. He is also recognised for his performance with shadow play. His works often speak about love, loss and displacement, in his own very personal and multi-dimensional language.
